### Who should not take VIEKIRA PAK?

#### Do not take VIEKIRA PAK if you:

- **have certain liver problems**
- **take any of the following medicines:**
  - alfuzosin hydrochloride (Uroxatral<sup>®</sup>)
  - carbamazepine (Carbatrol<sup>®</sup>, Epitol<sup>®</sup>, Equetro<sup>®</sup>, Tegretol<sup>®</sup>, TEGRETOL-XR<sup>®</sup>, TERIL<sup>®</sup>)
  - cisapride (Propulsid<sup>®</sup>)
  - colchicine (Colcrys<sup>®</sup>)
  - dronedarone (Multaq<sup>®</sup>)
  - efavirenz (Atripla<sup>®</sup>, Sustiva<sup>®</sup>)
  - ergot containing medicines including:
    - ergotamine tartrate (Cafergot<sup>®</sup>, Ergomar<sup>®</sup>, Ergostat<sup>®</sup>, Medihaler<sup>®</sup>, Migergot<sup>®</sup>, Wigraine<sup>®</sup>, Wigrettes<sup>®</sup>)
    - dihydroergotamine mesylate (D.H.E. 45<sup>®</sup>, Migranal<sup>®</sup>)
    - methylergonovine (Ergorate<sup>®</sup>, Methergine<sup>®</sup>)
  - ethinyl estradiol-containing medicines:
    - combination birth control pills or patches, such as Lo Loestrin<sup>®</sup> FE, Norinyl<sup>®</sup>, Ortho Tri-Cyclen Lo<sup>®</sup>, Ortho Evra<sup>®</sup>
    - hormonal vaginal rings such as NuvaRing<sup>®</sup>
    - the hormone replacement therapy medicine, Fem HRT<sup>®</sup>
  - gemfibrozil (Lopid<sup>®</sup>)
  - lovastatin (Advicor<sup>®</sup>, Altoprev<sup>®</sup>, Mevacor<sup>®</sup>)
  - lurasidone (Latuda<sup>®</sup>)
  - midazolam, when taken by mouth
  - phenytoin, (Dilantin<sup>®</sup>, Phenytek<sup>®</sup>)
  - phenobarbital (Luminal<sup>®</sup>)
  - pimozone (Orap<sup>®</sup>)
  - ranolazine (Ranexa<sup>®</sup>)
  - rifampin (Rifadin<sup>®</sup>, Rifamate<sup>®</sup>, Rifater<sup>®</sup>, Rimactane<sup>®</sup>)
  - sildenafil citrate (Revatio<sup>®</sup>), when taken for pulmonary artery hypertension (PAH)
  - simvastatin (Simcor<sup>®</sup>, Vytorin<sup>®</sup>, Zocor<sup>®</sup>)
  - St. John's wort (Hypericum perforatum) or a product that contains St. John's wort
  - triazolam (Halcion<sup>®</sup>)
- **have had a severe skin rash after taking ritonavir (Norvir<sup>®</sup>)**

### **What should I tell my healthcare provider before taking VIEKIRA PAK?**

**Before taking VIEKIRA PAK tell your healthcare provider about all your medical conditions, including if you:**

- have liver problems other than hepatitis C infection. **See “Who should not take VIEKIRA PAK?”**
- have HIV infection
- have had a liver transplant. If you take the medicines tacrolimus (Prograf<sup>®</sup>) or cyclosporine (Gengraf<sup>®</sup>, Neoral<sup>®</sup>, Sandimmune<sup>®</sup>) to help prevent rejection of your transplanted liver, the amount of these medicines in your blood may increase during treatment with VIEKIRA PAK.
  - Your healthcare provider should check the level of tacrolimus or cyclosporine in your blood, and if needed may change your dose of these medicines or how often you take them.
  - When you finish taking VIEKIRA PAK or if you have to stop VIEKIRA PAK for any reason, your healthcare provider should tell you what dose of tacrolimus or cyclosporine to take and how often you should take it.
- are pregnant or plan to become pregnant. It is not known if VIEKIRA PAK will harm your unborn baby. **When taking VIEKIRA PAK in combination with ribavirin you should also read the ribavirin Medication Guide for important pregnancy information.**
- are breastfeeding or plan to breastfeed. It is not known if VIEKIRA PAK passes into your breast milk. Talk to your healthcare provider about the best way to feed your baby if you take VIEKIRA PAK.

**Tell your healthcare provider about all the medicines you take**, including prescription and over-the-counter medicines, vitamins, and herbal supplements. Some medicines interact with VIEKIRA PAK.

**Keep a list of your medicines to show your healthcare provider and pharmacist.**

- You can ask your healthcare provider or pharmacist for a list of medicines that interact with VIEKIRA PAK.
- **Do not start taking a new medicine without telling your healthcare provider.** Your healthcare provider can tell you if it is safe to take VIEKIRA PAK with other medicines.
- When you finish treatment with VIEKIRA PAK:
  - If your healthcare provider changed the dose of one of your usual medicines during treatment with VIEKIRA PAK: Ask your healthcare provider about when you should change back to your original dose after you finish treatment with VIEKIRA PAK.
  - If your healthcare provider told you to stop taking one of your usual medicines during treatment with VIEKIRA PAK: Ask your healthcare provider if you should start taking these medicines again after you finished treatment with VIEKIRA PAK.

### **How should I take VIEKIRA PAK?**

- Take VIEKIRA PAK exactly as your healthcare provider tells you to take it. Do not change your dose.
- Do not stop taking VIEKIRA PAK without first talking with your healthcare provider.
- Take VIEKIRA PAK tablets every day, with a meal.
- VIEKIRA PAK comes in **monthly cartons that contain enough medicine for 28 days.**
- Each monthly carton of VIEKIRA PAK contains **4 smaller cartons.**
- Each of the 4 smaller cartons contains enough child resistant **daily dose packs** of medicine to last for **7 days (1 week).**
- Each **daily dose pack** contains all of your VIEKIRA PAK medicine for **1 day** (4 tablets). Follow the instructions on each daily dose pack about how to remove the tablets.
- Take VIEKIRA PAK tablets with a meal as follows:
  - Take the **2** pink tablets (ombitasvir, paritaprevir, and ritonavir), with **1** of the beige tablets (dasabuvir), at about the same time every morning.
  - Take the **second** beige tablet (dasabuvir), at about the same time every evening.
- It is important that you do not miss or skip doses of VIEKIRA PAK during treatment.
- If you take too much VIEKIRA PAK, call your healthcare provider or go to the nearest hospital emergency room right away.

**What are the possible side effects of VIEKIRA PAK?**

**VIEKIRA PAK can cause serious side effects. See “What is the most important information I should know about VIEKIRA PAK?”**

Common side effects of VIEKIRA PAK when used with ribavirin include:

- tiredness
- nausea
- itching
- skin reactions such as redness or rash
- sleep problems
- feeling weak

Common side effects of VIEKIRA PAK when used without ribavirin include:

- nausea
- itching
- sleep problems

These are not all the possible side effects of VIEKIRA PAK. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.

**How should I store VIEKIRA PAK?**

- Store VIEKIRA PAK at or below 86°F (30°C).

**Keep VIEKIRA PAK and all medicines out of the reach of children.**

**General information about the safe and effective use of VIEKIRA PAK**

Medicines are sometimes prescribed for purposes other than those listed in a Medication Guide. Do not use VIEKIRA PAK for a condition for which it was not prescribed. Do not give VIEKIRA PAK to other people, even if they have the same symptoms that you have. It may harm them. You can ask your pharmacist or healthcare provider for information about VIEKIRA PAK that is written for health professionals.

**What are the ingredients in VIEKIRA PAK?****Ombitasvir, paritaprevir, and ritonavir tablets:**

**Active ingredients:** ombitasvir, paritaprevir, and ritonavir

**Inactive ingredients:** copovidone, K value 28, vitamin E polyethylene glycol succinate, propylene glycol monolaurate Type I, sorbitan monolaurate, colloidal silicon dioxide/colloidal anhydrous silica, sodium stearyl fumarate, polyvinyl alcohol, polyethylene glycol 3350/macrogol 3350, talc, titanium dioxide, and red iron oxide.

**Dasabuvir tablets:**

**Active ingredients:** dasabuvir

**Inactive ingredients:** microcrystalline cellulose (D50-100 um), microcrystalline cellulose (D50-50 um), lactose monohydrate, copovidone, croscarmellose sodium, colloidal silicon dioxide/anhydrous colloidal silica, magnesium stearate, polyvinyl alcohol, titanium dioxide, polyethylene glycol 3350/macrogol 3350, talc and iron oxide yellow, iron oxide red and iron oxide black.
